Clients

Anna's client base is diverse, and they come from many walks of life. While a first year law student at DePaul University College of Law in Chicago, Anna capitalized on her social work background and began volunteering at the Chicago Legal Clinic, a non-profit organization that provides legal services to clients who are not eligible for no cost legal aid services, but who do not have the resources to pay for private counsel. She was subsequently awarded a Public Interest Law Initiative fellowship and continued to provide legal services to an underserved population of clients at the Clinic through the remainder of her law school career. She was hired by the Clinic as an attorney upon her graduation from DePaul. While employed at the Clinic, she represented clients in various types of family law

matters, matters involving domestic violence issues and at disability hearings before administrative law judges of the Social Security Administration. Upon transitioning to private practice in the Chicago area, Anna continued to represent individual clients in various family law matters, as well as individual and business clients in commercial litigation cases.

Upon her relocation to Wisconsin in 2009, Anna continued to represent clients in a variety of family law matters, and she expanded her practice to include the representation of individuals and corporate fiduciaries in probate and trust administration and litigation matters, estate planning and elder law matters. As a dually licensed attorney, Anna has assisted Illinois attorneys and clients with Wisconsin legal matters and has assisted Wisconsin attorneys and clients with matters that require expertise in Illinois law.
